The rainfall in Washington was very heavy, approaching a cloudburst. It is said that it was the most excessive rainfall in any one hour within the last twen-ty years. ### Juvenile Offenders.

Benjamin Allen, Malvin Mayhugh, and George Massey, white boys, who were arrested for entering houses, stealing door mats, breaking open chewing am machines and committing other depredations, were brought before the Police Court at 5 o'clock vesterday evening. Justice Caton determined to commit Allen and Mayhugh to the House of Correction, and announced that the others would meet with the same fate unless their parents came forward and administered corporal punishment on them at the station house, in the presence of the officers. # Attempted Suicide.

About two o'clock this morning considerable excitement was caused on Fairfax street, between King and Cameron, by an attempt on the part of G. mit suicide by inhaling illuminating gas. Hodges was taken from the room barely in time to save his life. A few months ago he was critically ill, so much so that physicians despaired of his life. He revived, however, but has not been restored to health, and it is supposed his rash act was superinduced by despondency.

General Manager Callahan of the Nor-iolk and Washington Steamboat Company, has asked for bids for the construction of the new steel side-wheel steamer which the Norfolk and Washington company proposes to build during the coming winter. Plans and specifications for the new boat were placed in the hands of the Newport News Shipbuilding Company, the Harlin & Hollingsworth Company of Wilmington, Del., the Maryland Steel Company, at Sparrow's Point, Md., and the New York Shipbuilding Company, at Camden, N. She will be a handsome boat and is to be used for daylight trips on the river and to Norfolk. The steamer is to cost about \$250,000, and is to be ready for service about May 1 next.

## Russia Wants Peace.

Russia has formally signified to President Roosevelt her desire for a lasting peace, not only by the appointment of plenipotentiaries who will be accompanied by eminent experts, fully empowered to conclude a treaty subject only to the ratification of the respective governments, but as a final step has indicated her readiness to suspend hostilities. She has avoided formally asking for an armistice as a matter of pride, but under the circumstances Russia could hardly go further than she has. Japan, so far as known, has not yet indicated her atti-tude, or, if she has, Russia up to this afternoon has not been so informed. In diplomatic circles the most earnest hope is expressed that Japan will consent, order to prevent a catastrophe in Russia which may shake the Romanoff throne and appall the world with its horrors.
